

SUMMIT[™] Colocation

SECURE, SCALABLE, AND
ALWAYS-ON INFRASTRUCTURE

Get space, power, connectivity, and 24/7 support with colocation from Summit. Backed by 100% uptime SLAs, our 100+ Gbps global backbone, and SOC 2/HIPAA/PCI compliance.

Pain Points & Risks

- ✗ Rising costs of owning and operating data centers
- ✗ Complex compliance requirements (HIPAA, PCI DSS, GDPR)
- ✗ Limited scalability of on-prem environments
- ✗ Security risks from physical or network gaps
- ✗ IT teams stretched thin with facility management
- ✗ Seasonal spikes and unpredictable workloads
- ✗ Aging infrastructure blocking modernization

Features that Deliver

Summit's Colocation solution delivers enterprise-grade infrastructure with built-in security, compliance, and scalability. Designed for hybrid workloads and high-density deployments, it empowers businesses to modernize without the burden of owning and operating physical environments.

HIGH-DENSITY POWER & COOLING	Purpose-built for demanding workloads with redundant power and advanced cooling systems.		24/7 REMOTE HANDS	On-site technical support for hardware installs, troubleshooting, and maintenance.	
CARRIER-NEUTRAL CONNECTIVITY	Access to multiple Tier 1 carriers and cloud on-ramps for flexible networking.		ON-SITE PARTS	For faster repairs and replacements.	
COMPLIANCE-READY INFRASTRUCTURE	Built to meet HIPAA, PCI DSS, GDPR, and ISO 27001 standards.		SCALABLE FOOTPRINT	From single cabinets to private cages.	
PHYSICAL SECURITY	24/7 surveillance, dual-authentication biometric access, and mantraps ensure facility integrity.		HYBRID CLOUD INTEGRATION	Seamless connectivity to major public clouds and Summit's Enterprise Cloud.	

Tailored for Your Business

FRACTIONAL CABINET	DEDICATED CABINET	PRIVATE CAGE
Cost-effective access for startups and SMBs (¼, ½, or 1 cabinets).	Isolated environment with enhanced control and performance.	Maximum protection for enterprises with strict compliance and security needs.

Optional Add-ons

- ✓ Cabinet - and/or cage-level biometric access controls
- ✓ Cage video surveillance
- ✓ 24/7 on-site Remote Hands support
- ✓ Cross-connects to carriers, partners, and clouds
- ✓ Managed network devices & DDoS protection
- ✓ Integrated backup & DR services

Outcomes That Matter

- Avoid on-site trips by leveraging Summit's Remote Hands experts
- Lower infrastructure costs by eliminating CapEx and reducing OpEx
- Stronger compliance posture with audit-ready infrastructure
- Better performance for demanding workloads
- Agility to scale infrastructure quickly
- More time for IT teams to focus on strategy and innovation

TESTIMONIAL

"CDW sells multi-million dollar cloud deals and asks Summit to do 100% of the racking, stacking, and cabling. I mean these are multi-million dollar deals, and we trust Summit. That speaks volumes."

Core Use Cases

- | | |
|--|--|
| • Public cloud costs are too high | • Compliance-driven workloads requiring HIPAA, PCI, or GDPR controls |
| • Hybrid deployments needing a mix of on-prem with seamless connectivity to Summit's Enterprise Cloud and hyperscalers | • High-density compute for AI/ML, HPC, and other GPU-intensive workloads |
| • Disaster recovery in secure, geographically diverse facilities | • Multi-tenant SaaS platforms with secure, predictable costs |

Summit Advantages

- | | | |
|---|---|---|
| • State-of-the-art facilities with advanced security and 100% uptime SLAs | • 24/7 access to certified engineers on site for Remote Hands and troubleshooting | • Seamless hybrid integration with Summit's Enterprise Cloud and public cloud providers |
| • Flexible management options: fully managed, co-managed, or self-managed | • Infrastructure aligned with HIPAA, PCI DSS, GDPR, ISO 27001, and SOC 2 | • Transparent monthly pricing with no hidden fees |
| • No network transit fees inside Summit's infrastructure | • Data centers across 6 continents for redundancy and proximity | • Multi-layered physical security including biometrics and surveillance |

Global Data Centers

Summit's worldwide network keeps infrastructure secure, compliant, and close to your business.

Take the Next Step

Future-proof your infrastructure with secure, compliant colocation from Summit. **Contact us today** to design the right environment for your business.
