

SUMMIT™

Managed Backup

WE'LL MANAGE YOUR BACKUPS AND
RECOVER THEM FOR YOU.

Because your runbooks are outdated. Because your production environment changes too quickly to keep up. Because your backup data is corrupted. Because you don't even know if your recovery plan works. Whatever your reason, Summit is the industry expert in all things secure backup and recovery.

Pain Points & Risks

Traditional backup solutions can't keep pace with today's threats and demands. Without expert support, businesses face risk:

- ✗ **Rising Cyber Threats** - Ransomware and attacks put continuity at constant risk.
- ✗ **Limited IT Resources** - In-house teams lack time or expertise to manage backups.
- ✗ **Compliance Pressure** - HIPAA, GDPR, and PCI DSS demand auditable backup processes.
- ✗ **Unpredictable Data Growth** - Legacy systems fail under exploding data volumes.
- ✗ **Downtime Costs** - Every minute offline damages revenue and reputation.
- ✗ **Manual Errors** - Human-driven backups risk missed restores.
- ✗ **Hidden Costs** - Legacy systems pile on hardware, licensing, and maintenance fees.

Features that Deliver

Backups don't guarantee recoveries, but we do.

FULLY MANAGED, CLOUD-BASED BACKUP	Offload backup operations to Summit's experts and infrastructure, eliminating the need for on-premises hardware and manual management.	
RAPID RECOVERY & GRANULAR RESTORE	Restore files, folders, or entire systems in minutes, minimizing downtime and business disruption.	
END-TO-END SECURITY	Data is encrypted in transit and at rest, with multi-factor authentication and immutable storage options to defend against ransomware.	
FLEXIBLE RETENTION & COMPLIANCE	Customizable retention policies and detailed audit trails help you meet regulatory requirements with confidence.	
SCALABLE, PAY-AS-YOU-GROW MODEL	Easily scale storage up or down as your data needs change, with predictable monthly pricing and no surprise fees.	
MULTI-PLATFORM SUPPORT	Protect physical servers, virtual machines, cloud workloads, and SaaS applications—all from a single pane of glass.	
AUTOMATED MONITORING & REPORTING	Proactive monitoring, alerting, and detailed reporting ensure you always know your data is protected.	

Tailored for Your Business:

Summit offers flexible options to align with your workloads and compliance needs.

Optional Add-ons	 Advanced Ransomware Protection - Enable immutable backups and AI-driven anomaly detection for next-level defense.
 Disaster Recovery as a Service (DRaaS) - Add automated failover and site recovery for true business continuity.	 Long-Term Archival - Meet regulatory or business retention needs with cost-effective, long-term storage options.
 Geo-Redundant Storage - Replicate backups across multiple regions for enhanced resilience and compliance.	 Custom Compliance Reporting - Generate tailored compliance and audit reports for industry-specific regulations.

Outcomes That Matter

Summit's Managed Backup delivers protection and peace of mind.

REGULATORY CONFIDENCE	Compliance-ready with full audit support.
REDUCED DOWNTIME	Rapid restore minimizes business impact.
COST OPTIMIZATION	Eliminate CapEx with predictable monthly pricing.
IT FOCUS	Free your team to drive innovation, not manage backups.

TESTIMONIAL

"If Summit goes down, our students can't get into their dorms because their badge scanners won't work. Fortunately, Summit doesn't go down — so neither do we."

Core Use Cases

Designed to protect data wherever and however you use it.

INSTANT RECOVERY

For critical systems.

GENERAL WORKLOAD BACKUP

Reliable protection for day-to-day systems.

APP-AWARE BACKUP

Tier-1 apps like ERP and databases.

CLOUD MIGRATION

Safeguard data during transitions.

Summit Advantages

What sets Summit apart:

EXPERT SUPPORT

24/7 access to real engineers for troubleshooting and optimization.

SECURITY & COMPLIANCE

Meets GDPR, HIPAA, PCI DSS, and more.

GLOBAL DATA CENTERS

Keep backups close for compliance and performance.

PROVEN RELIABILITY

SLAs for durability and availability.

CUSTOMIZABLE SOLUTIONS

Add-ons and tiers fit your exact business needs.

Global Data Centers

Summit's worldwide network keeps infrastructure secure, compliant, and close to your business.

Take the Next Step

Contact us to get reliable backups for the data your business depends on.
