

Multi-Tenant Cloud

HIGH-PERFORMANCE CLOUD WITH PREDICTABLE COSTS AND NO LOCK-IN

Summit delivers fully managed, secure, and high-performance infrastructure hosting for business-critical workloads.

Choose your hardware, scale on demand, and enjoy predictable pricing, expert support, and compliance-ready security. Our US-based team manages the complexity so your IT staff can focus on innovation, not maintenance.

Pain Points & Risks

Today's IT leaders face mounting cost shocks, compliance pressure, and operational complexity. Delaying modernization puts business at risk.

- ✘ **Rising Licensing Costs** - Virtualization vendors are driving up prices and bundling requirements.
- ✘ **Hybrid Complexity** - On-prem, cloud, and legacy environments create management headaches.
- ✘ **Vendor Lock-In** - Rigid platforms restrict workload flexibility and migration.
- ✘ **Downtime Risks** - Outdated stacks increase outages and SLA violations.
- ✘ **Compliance Gaps** - Limited visibility jeopardizes HIPAA, PCI DSS, and SOC 2 requirements.
- ✘ **Resource Strain** - Internal teams lack bandwidth for complex operations.
- ✘ **Unpredictable Costs** - Public cloud hides fees in licensing, egress, and integration.

Features that Deliver

Summit's Multi-Tenant Cloud combines flexibility with enterprise-grade performance.

1	PLATFORM FREEDOM	Run workloads as VMs or containers on your choice of hypervisor.	
2	FULLY MANAGED SERVICE	Summit engineers handle monitoring, patching, and lifecycle management.	
3	HIGH AVAILABILITY ARCHITECTURE	Redundant infrastructure ensures uptime	
4	PREDICTABLE PRICING	Transparent monthly rates with no hidden fees.	
5	SCALABLE RESOURCE POOLS	Scale compute, memory, and storage without disruption.	
6	SECURITY & COMPLIANCE	Built-in controls, audit trails, and policy enforcement support HIPAA, PCI DSS, SOC 2, and other regulatory requirements.	
7	GEO-REDUNDANCY	Deploy across Summit's data centers for continuity.	

Optional Add-ons

- ✓ **Hybrid Cloud Integration** - Seamlessly connect on-prem, public cloud, and Summit-hosted resources.
- ✓ **Cloud Migration** - Fully managed, compliance-ready, zero downtime.
- ✓ **Geo-Redundancy** - Deploy workloads in multiple Summit data centers for continuity.
- ✓ **Managed Services** - OS management, advanced observability, endpoint protection, backup/DR, DDoS protection, managed firewalls, vulnerability scanning.
- ✓ **Performance Tiering** - Optimize cost and performance with customizable storage and compute tiers.

Tailored for Your Business:

Two flexible models to align with your needs:

MULTI-TENANT CLOUD:

Enterprise-grade, logically isolated, cost-efficient.

DEDICATED PRIVATE CLOUD:

Single-tenant, customizable, maximum control.

Outcomes That Matter

Multi-Tenant Cloud empowers your business with cost control, resilience, and flexibility.

REDUCED DOWNTIME	High-availability design and proactive support.
FASTER MIGRATION	Expert-led, compliance-ready migrations with zero downtime.
SIMPLIFIED COMPLIANCE	Audit trails and policy enforcement built in.
OPTIMIZED COSTS	Avoid licensing shocks and hidden public cloud fees.
BETTER EXPERIENCE	Reliable, high-performance systems improve user satisfaction.

TESTIMONIAL

“Summit consolidated merging healthcare orgs from four different data centers into their Multi-Tenant Cloud for us with 100% success and zero downtime.”

vizient

- the largest member-driven healthcare performance improvement company in the U.S.

Core Use Cases

Multi-Tenant Cloud powers stable, regulated, and mission-critical workloads.

HYBRID & MULTI-CLOUD HOSTING Unified management across environments.	MISSION-CRITICAL APPS Ensure uptime for ERP, CRM, and custom apps.	COMPLIANCE-DRIVEN WORKLOADS HIPAA, PCI DSS, SOC 2 ready.	DISASTER RECOVERY & CONTINUITY Geo-redundancy with automated failover.	VIRTUAL DESKTOP INFRASTRUCTURE (VDI) Secure, scalable remote desktops.

Summit Advantages

What makes Summit different:

PLATFORM CHOICE

Freedom to choose your hypervisor with smooth migration and no vendor lock-in.

EXPERT SUPPORT

24/7/365 access to Summit's US-based operations and engineering teams.

SECURITY & COMPLIANCE

Built-in controls, audit trails, and policy enforcement exceed industry standards.

OPERATIONAL RIGOR

Redundant, geo-distributed data centers and robust SLAs ensure uptime and reliability.

SCALABILITY

Proven to support thousands of devices and services, scaling as your business grows.

CUSTOMIZABLE & EXTENSIBLE

Integrates with existing workflows and tools.

TRANSPARENT PRICING

Predictable, all-inclusive pricing with no hidden fees or surprise charges.

HYBRID FLEXIBILITY

Add colo or managed services for complex deployments.

BOUTIQUE EXPERIENCE + GLOBAL SCALE

High-touch service with enterprise infrastructure.

Global Data Centers

Summit's worldwide network keeps infrastructure secure, compliant, and close to your business.

Take the Next Step

Discover how Summit's Multi-Tenant Cloud can transform your IT operations. Contact us for a personalized demo.

ABOUT **SUMMIT**

Summit manages IT infrastructure for enterprise organizations in secure data centers worldwide.
