Licensing		BYOL or via	Summit

"I wasn't sure how the speed of our QuickBooks Enterprise would work with so many users, but it's been great."

— QUICKBOOKS CUSTOMER SINCE 2020

## QuickBooks Desktop vs. QuickBooks Online

FEATURE	QUICKBOOKS DESKTOP FROM SUMMIT	QUICKBOOKS ONLINE
Critical Business Functionality	✓ Advanced features like enhanced payroll, inventory, pricing, and timesheets.	✗ Limited functionality; lacks many advanced tools needed for complex businesses.
License Optimization	✓ One price per user with unlimited financial entities.	✗ Charges per user and per financial entity, quickly adding up in costs.
Personalized Service	✓ Comprehensive implementation and ongoing support for QuickBooks and other applications.	✗ Generic, one-size-fits-all support limited to QuickBooks Online only.
Third-Party Integrations	✓ Supports over 200+ essential third-party apps.	✗ Limited third-party integrations, restricting functionality.
Security	✓ Advanced cybersecurity on private servers.	✗ Basic shared-cloud security with greater exposure to risks.
Availability	✓ 99.99% online uptime and full offline capability.	✗ 100% dependent on internet with no offline access.
Support	✓ 24/7 live, U.S.-based support with under 20-minute response times.	✗ Slow and complicated chat-based support with no live assistance guaranteed.

# Focus on everything but hosting QuickBooks.

As an Intuit-authorized hosting provider, Summit offers more than just a **secure and reliable hosting environment**. We're your partner in making **QuickBooks work for your business**. From **hosting setup and installation** to **daily backups and technical support**, we've got you covered at every step.

## QuickBooks Enterprise hosted by Summit is the right choice when:

- > Your business relies on **advanced features exclusive to QuickBooks Enterprise**
- > **Data privacy and control** are critical concerns for your organization
- > **Avoiding license fees for each financial entity** is a priority
- > You want to **focus on growing your business** rather than managing **IT infrastructure and cybersecurity**
- > You want to **leverage the latest technology** without **large upfront costs in hardware**

### TESTIMONIAL

"Summit is one of the very few companies I don't hate to have to contact. Most companies take days to respond and only escalate to an actual engineer after you've relayed your issue several times. Summit's support escalates problems almost immediately."

— GARRETT B., CUSTOMER SINCE 2015
